EXAMINER'S COMMENT

1. Applicant's newly submitted claims 15-30 overcome the rejection under 35 U.S.C. § 112, 2nd paragraph. The rejection has been withdrawn.

Applicant's arguments regarding the primary reference of Holland is persuasive. Holland does not disclose nor anticipate the use of a supporting member, which supports a side of a medicine envelope prior to the mouth of the envelope being folded over the top of the support member by a holding member. The rejection under 35 U.S.C. §§ 102(b) and 103(a) has been withdrawn.

Applicant's argument regarding the article being worked on is not persuasive, as an apparatus claim must be distinguished in terms of structure rather than the article worked upon. See MPEP § 2115.

Claims 15-30 are in condition for allowance.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the medicine envelope feeder comprised of a supporting member, which supports a side of a medicine envelope prior to the mouth of the envelope being folded over the top of the support member by a holding member and where the holding member vertically raises the package off the support member is distinguished over the prior art of Holland and Minenko which discloses a holding member, but does not disclose or teach the use of a

holding member which engages an envelope mouth which has been folded over a supporting member prior to being removed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
